" TAX RATE GENERALLY

Tax rate generally.

"(b) (1) The processing tax shall be at such rate as equals the difference between the current average farm price for the commodity and the fair exchange value of the commodity, plus such percentage of such difference, not to exceed 20 per centum, as the Secretary of Agriculture may determine will result in the collection, in any marketing year with respect to which such rate of tax may be in effect pursuant to the provisions of this title, of an amount of tax equal to (A) the amount of credits or refunds which he estimates will be allowed or made during such period pursuant to section 15 (c) with respect to the commodity and (B) the amount of tax which he estimates would have been collected during such period upon all processings of such commodity which are exempt from tax by reason of the fact that such processings are done by or for a State, or a political subdivision or an institution thereof, had such processings been subject to tax. If, prior to the time the tax takes effect, or at any time thereafter, the Secretary has reason to believe that the tax at such rate, or at the then existing rate, on the processing of the commodity generally or for any designated use or uses, or on the processing of the commodity in the production of any designated product or products thereof for any designated use or uses, will cause or is causing such reduction in the quantity of the commodity or products thereof domestically consumed as to result in the accumulation of surplus stocks of the commodity or products thereof or in the depression of the farm price of the commodity, then the Secretary shall cause an appropriate investigation to be made, and afford due notice and opportunity for hearing to interested parties. If thereupon the Secretary determines and proclaims that any such result will occur or is occurring, then the processing tax on the processing of the commodity generally or for any designated use or uses, or on the processing of the commodity in the production of any designated product or products thereof for any designated use or uses, shall be at such lower rate or rates as he determines and proclaims will prevent such accumulation of surplus stocks and depression of the farm price of the commodity, and the tax shall remain during its effective period at such lower rate until the Secretary, after due notice and opportunity for hearing to interested parties, determines and proclaims that an increase in the rate of such tax will not cause such accumulation of surplus stocks or depression of the farm price of the commodity. Thereafter the processing tax shall be at the highest rate which the Secretary determines will not cause such accumulation of surplus stocks or depression of the farm price of the commodity, but it shall not be higher than the rate provided in the first sentence of this paragraph.

Determination of rates after December 31, 1937.

"(G) If the applicability to any person or circumstances of any tax, the rate of which is fixed in pursuance of this paragraph (6), is finally held invalid by reason of any provision of the Constitution, or is finally held invalid by reason of the Secretary of Agriculture's exercise or failure to exercise any power conferred on him under this title, there shall be levied, assessed, collected, and paid (in lieu of all rates of tax fixed in pursuance of this paragraph (6)) with respect to all tax liabilities incurred under this title on or after the effective date of each of the rates of tax fixed in pursuance of this paragraph (6), rates of tax fixed under paragraph (2), (3), (4), or (5), and such rates shall be in effect (unless the particular tax is terminated pursuant to proclamation, as provided in section 9 (a) or pursuant to section 13) until altered by Act of Congress; except that, for any period prior to the effective date of such holding of invalidity, the amount of tax which represents the difference between the tax at the rate fixed in pursuance of this paragraph (6) and the tax at the rate fixed under paragraphs (2), (3), (4), and (5) shall not be levied, assessed, collected, or paid.

Whenever all the handlers of not less than 75 per centum of the volume of anti-hog-cholera serum and hog-cholera virus which is handled in the current of interstate or foreign commerce, or so as directly to burden, obstruct, or affect interstate or foreign commerce, have signed a marketing agreement entered into with the Secretary of Agriculture pursuant to section 57 of this Act, the Secretary of Agriculture shall issue an order which shall regulate only such handling in the same manner as, and contain only such terms and conditions as are contained in such marketing agreement, and shall from time to time amend such order in conformance with amendments to such marketing agreement. Such order shall terminate upon termination of such marketing agreement as provided in such marketing agreement.

(b) If the Secretary of Agriculture finds at any time that the total apportionments to producers in any potato-producing region or regions (as established and defined pursuant to subsection (c) of section 209 of this title) are in excess of the probable supply of potatoes in the continental United States during the marketing periods for such region or regions, he shall proclaim such determination, and the provisions of this title shall not be operative during such marketing periods.

Proclamation of production quantity for allotment year.

SEC. 203. The Secretary of Agriculture shall investigate probable production and market conditions for each allotment year and shall determine from available statistics of the Department of Agriculture and proclaim, at least thirty days prior to the beginning of each allotment year, the quantity of potatoes which, if produced during such year and sold during or after such year, will, in his opinion, tend to establish and maintain such balance between the production, sale, and consumption of potatoes and the marketing conditions therefor as will, in his opinion, tend to establish prices to potato producers at a level that would give potatoes a purchasing power with respect to articles that farmers buy equivalent to the purchasing power of potatoes in the period August 1919–July 1929 without reducing the total net income of potato producers from potatoes below the largest probable income of potato producers from potatoes produced during such allotment year, and without tending to cause to producers of potatoes disadvantages in competition by reason of an excessive shift in consumption from potatoes to some other commodity or commodities; and the quantity so proclaimed shall, for each allotment year, be apportioned by the Secretary of Agriculture as hereinafter provided.

Apportionment of quantity.

Determination of apportionment to each State.

Formula.

SEC. 204. When a quantity is determined in accordance with section 203 of this title, the Secretary of Agriculture shall apportion such quantity among the several States. The apportionment to each State shall be determined on the basis of the ratio that the annual average acreage of the four years in which the highest potato acreage was harvested in such State in the years 1927–1934, inclusive, multiplied by the average yield per acre for the four years that the yield of potatoes per acre for such State was highest in the years 1927–1934, inclusive, multiplied by the average annual percentage of the crop

produced in such State during the years 1929-1934, inclusive, which was sold, bears to the sum of the products of such average acreages, such average yields, and such percentages of sales for all States: *Provided*, That if the Secretary of Agriculture finds that the application of the foregoing formula alone would, because of differences in production practices and marketing practices among the several States, result in an inequitable and unfair apportionment to any State or States, not in excess of 2 per centum of the quantity of potatoes determined in accordance with section 203 of this title may be deducted from such quantity and may be used by the Secretary of Agriculture to adjust on the basis of equity and fairness the apportionments made or to be made to any State or States.

Proviso.

SEC. 204a. The quantity determined and proclaimed by the Secretary of Agriculture pursuant to Section 203, and the quantity apportioned to each State pursuant to Section 204, may at such intervals as the Secretary of Agriculture finds necessary to effectuate the declared policy and purposes of this Act be adjusted by him: *Provided*, That the quantity so determined and proclaimed shall not be increased or decreased by more than 5 per cent.

Adjustments authorized.

SEC. 205. Ninety-five per centum of the quantity of potatoes apportioned to any State pursuant to section 204 of this title shall be apportioned by the Secretary of Agriculture to farms on which potatoes have been grown within such State during any one or more years within the period 1932-1934, inclusive. The representative base period prescribed by the Secretary and the percentage applied to the average sales of potatoes produced during such period in establishing apportionments for each farm under this paragraph shall, so far as practicable, be uniform for farms similarly situated upon the basis or classification prescribed by the Secretary of Agriculture, but in the case of any farm for which such average sales are 300 pounds or less, such average sales shall be exempt from any percentage reduction thereof and such farm shall receive an apportionment equal to such average sales; or

SEC. 206.
